

Commute.org has a new program available for green commuters! If you walk, bike, take transit, ride a shuttle, or carpool/vanpool to work in San Mateo County, you're eligible for up to 4 reimbursed Guaranteed Rides Home (GRH) each calendar year in the event of an emergency. Think of it as your green commute insurance.

The [GRH program](#) covers an emergency trip home from work in case of:

- Personal or family Illness/Emergency
- Eldercare or daycare emergency
- Bicycle theft or breakdown
- Inclement weather (for walkers/bicyclists)
- Carpool partner emergency resulting in loss of ride home

When you encounter an emergency on a day that you use a green commute to work, simply use a taxi, Lyft/Uber, or transit service to get home, and then request a reimbursement through Commute.org's [STAR platform](#).

For complete rules and limitations, visit [Commute.org](#). If you have any questions about the program, reach out to Commute.org via email at support@commute.org.
