

Peace of mind. Delivered.

Do you want to be greener but don't know where to start? Here's a good first step: take transit! Taking a bus, train, or ferry to work significantly reduces your carbon footprint. But don't just take our word for it, give it a try! We at Commute.org can help you easily make the switch.

If you take transit to work, and you experience a [qualified emergency](#), we will guarantee you a ride home in many circumstances. Consider it your **commute insurance**. Check the [eligibility list](#) for details. You're covered, so get out there! Our program covers carpool and vanpool riders as well. It's your time, so why waste it driving alone in traffic?

In order to claim your Guaranteed Ride Home (GRH), first sign up for STAR at [my.commute.org](#). Make sure to log your transit trips regularly in our STAR platform, and when an emergency arises (it happens, we know), **you decide** how to get home quickest. Our reimbursement covers an additional \$5 e-gift card bonus for using transit on your ride home, but you can also use a ride-hailing app such as Uber/Lyft, or a taxi, or a combination. Commute.org will reimburse up to \$60 per qualifying trip, up to four times per year. Make sure to keep those receipts handy when claiming your reimbursement since we must verify your mode of transportation to and from work on the day you need the GRH.

So, keep up the alternative commuting with the **peace of mind** that you are covered in the event of an emergency, and leave the car at home.

Your ride awaits.

For complete rules and limitations, visit our website: [Commute.org](#).

If you have any questions about the program, reach out to Commute.org via email: support@commute.org.
