

Commute.org now offers a Guaranteed Ride Home program (GRH) through the [STAR platform](#) to encourage commuters to use an alternative mode other than driving alone to work or to a participating College in San Mateo County.

Commuters who encounter an emergency on a day that they use a green commute (transit, ferry, shuttle, carpool, vanpool, bicycle or walk) can get reimbursed for their ride home. The commuter chooses the best way to get home and Commute.org covers up to \$60 for each qualified GRH trip (up to four times a year per commuter).

For complete rules and limitations, visit [Commute.org](#). If you have any questions about the program, reach out to Commute.org via email at [support@commute.org](mailto:support@commute.org).
